Via Passolanciano 75 – PESCARA**

The year 2012 in the month of February, the twenty-eight day, at 15.30 pm at the regional offices of Environment Energy Management, Street Passolanciano, 75 Pescara, The second Advisory Committee meeting of the European project called Bio-Methane Regions was held.

Attending:

Regione-Servizio Energia/ARAEN

✘ Francesca Bisesti,

✘ Enrico Forcucci,

✘ Assunta Iocco,

ARSSA: Sergio Iacoboni

REGIONE ASS. AGRICOLTURA: Elio Di Primio

CONSORZIO ECOGAS: Tramontano Alessandro, Daniele Speciale

UNIVERSITÀ L’AQUILA-Facoltà Ingegneria: Katia Gallucci

COTIR: Fecondo Giovanni, Tano Paola, Giovanni Fecondo

CIA Abruzzo: Filippo Rubei

COLDIRETTI Abruzzo: Bruno Palozzo

INEA: Patrik Febbo

Mrs. Bisesti introduces explaining the purpose of the meeting today.

There is debate about how to conduct the study tour. We agree about the absence on the Italian territory of a plant for the production of biomethane. It was decided therefore to go to Germany to visit real significant plants on the basis of valid proposals received from the foreign partners of the project. The subjects to be involved will be given by participants of the Advisory Committee (AC). It is noted that the Developers / stakeholders are the industries that can handle large amounts of materials (potential for medium and large plants).

The Regional Action Plan should explore the critical issues, barriers and regulations, as well as opportunities through business networks, the use of existing gas lines, etc.. to apply on our territory the EU policy on bio-methane.

It is agreed to spot the possible stakeholders including those who choose to participate in study tours.

For the purposes of the promotion all presents are asked to indicate all the possible initiatives to promote the biomethane locally.

This report was formally reviewed and approved.

At the meeting closed at 17.30.

Prof. Dr. Massimo Di Marco
